

about scha

South Carolina Hospital Association is a private, not-for-profit organization made up of some 100 member hospitals and health systems and about 900 personal members associated with our institutional members. The South Carolina Hospital Association was created in 1921 to serve as the collective voice of the state's hospital community. The Association is proud to be a part of the state's hospital industry, adding value to hospitals' efforts to care for the people of South Carolina. By helping to keep South Carolina's hospitals healthy, we are helping to keep our state healthy.

Our Mission

SCHA's mission is to support its member hospitals in creating a world-class health care delivery system for the people of South Carolina by fostering high quality patient care and serving as effective advocates for the hospital community.

Our Vision

South Carolina's hospitals will be national leaders in improving the quality and safety of patient care, and SCHA will be a national leader in advocacy.

Our Credo

We are stronger together than apart.

scha standards of behavior

In the spring of 2012, a diverse team of South Carolina Hospital Association employees developed the following Standards of Behavior based on SCHA's five core values: excellence, accountability, teamwork, professionalism and integrity. These standards define the behaviors that our members and the entire SCHA community can expect from all SCHA employees. The South Carolina Hospital Association's Standards of Behavior align our actions and attitudes with our mission, vision and values. These standards are employee-driven, leadership-supported guidelines that help us ensure a positive work environment.

Excellence

Excellence begins with a commitment to the highest standards of behavior. Each of us is responsible for SCHA's success and makes an ongoing pledge to abide by our values of excellence, accountability, teamwork, professionalism and integrity.

- Treat every person as if he or she is the most important individual in our organization
- Welcome others to my meeting area with eye contact, a smile and a friendly greeting
- Show others that I value their time by starting and ending meetings on time
- Respond to others in a timely manner
- Thank members for trusting SCHA to serve them and meet their needs

Accountability

Accountability describes our responsibility to own and learn from our failures and to celebrate our successes.

- Be prompt and prepared for work and bring a positive attitude
- Take responsibility for making sure that my words, actions, behaviors and decisions reflect positively on SCHA, my coworkers and the rest of the SCHA community

- Strive to exceed expectations in order to provide consistency in quality of service
- Respect and protect any confidential information received from within the SCHA community, patients, and other sources
- Realize that attitudes, words, vocal tone and volume, body language, facial expressions, and actions have tremendous power and use this information to influence positive interactions and outcomes
- Hold myself and others accountable to the values of SCHA

Teamwork

Teamwork describes how we all work together with courtesy, respect, communication, cooperation, and support toward common goals.

- Be proactive in identifying opportunities and solutions for organizational growth and improvement
- Recognizing that we all face challenges at work, commit to helping others succeed
- Ask my teammate(s) for assistance when I am overloaded and need their help
- Request information and follow through with my commitments in a timely fashion
- Serve as a resource to my team and other departments as needed

- Be accountable for information discussed during staff meetings
- Consider the impact of my work on my team and on other teams, and share relevant information as appropriate
- Recognize teams and individuals when they demonstrate outstanding performance or behavior

Professionalism

Professionalism is about how you represent yourself, the value you place on yourself and others, and how you apply your knowledge and skills.

- Treat everyone in the SCHA community with sensitivity to diversity in culture, age, gender, disability, social and economic status, sexual orientation, and other personal characteristics without discrimination, bias or harassment
- Know and abide by SCHA's dress code policy
- Wear my name badge in any environment in which
 - I need to be identified as an SCHA employee
- Be a constant learner and share learning opportunities
- Interact with members of the SCHA community in a helpful and supportive fashion with respect and recognition of the roles played by each individual

- Address my issues and concerns timely, directly and professionally with the person who can solve the problem
- Strive to maximize SCHA brand deposits and minimize brand withdrawals

Integrity

Integrity is the foundation for everything we do. Integrity and character build trust, and integrity is the basis of leadership and interpersonal relationships. It is doing the right thing even when no one is watching.

- Be accountable for my actions
- Be honest and reliable
- Have the courage and discipline to do the right thing
- Set a good example
- Apologize for problems or inconveniences and initiate actions to resolve them
- Comply with all applicable laws, regulations and organizational policies
- Be a good steward of our personnel, financial and material resources
