

**Short Term Acute Care Hospitals**

**Formula:**

\$ .45 per \$1,000 for the first \$20 million of expenses  
\$ .40 per \$1,000 for the next \$20 to \$100 million of expenses  
\$ .30 per \$1,000 for the next \$100 to \$500 million of expenses  
\$ .20 per \$1,000 for all expenses thereafter

Minimum dues are \$ 2,500

Maximum dues are \$101,000

The maximum will increase annually so that no more than 3% of the member institutions are paying the maximum dues.

**Multi-hospital systems discounts**

Systems with 100% membership will pay dues based on the lower of:

- (a) the total of the individual hospitals' normal dues with the minimums and maximums applied, or
- (b) dues calculated on the total expenses of the entire system with no maximum applied.

*Effective January 1, 2003, a multi-hospital system must have all of its hospitals enrolled in the membership. No memberships will be accepted from individual members of a multi-hospital system, as adopted by the FHA Board of Trustees September 22, 2000 and reaffirmed December 6, 2002.*

**Single-license, multi-campus hospitals**

These hospitals will pay dues based on total expenses reported to the state government under that license with no maximum applied. Such a single-license, multi-campus hospital may, at its option, be treated as a multi-hospital system and have option (a) above applied if it supplies FHA with an allocation among campuses of the total expenses reported to the state government. In the event the hospital does not supply FHA with an allocation among campuses, option (a) will be calculated by allocating expenses among campuses based on the number of beds at each campus.

**Statutory Rural Hospitals**

Statutory Rural Hospital, as designated by Florida Statute, will receive a credit of \$1,000 for their dues obligation.

**Psychiatric and Rehabilitation hospitals**

Psychiatric and Rehabilitation hospitals will pay dues based on 50% of above formula. The minimum dues and maximum dues limits will apply.

**Other Facilities**

State hospitals, VA hospitals, military hospitals, Shriners hospitals, et al, approved for membership, will pay minimum dues of \$2,500.
