

4. When did your association last increase your dues rate or modify the formula? 2008 _____(year)

5. Do you plan to increase your dues or modify your dues formulas within the next two years (other than as a result of a hospital's updated revenue or expensed data)? Yes No

6. Does your association have a formal dues variance policy for hardship and special circumstances? Yes No

a. If yes, describe or provide a copy of this policy by mail or fax.

CHA has a joint dues policy with the three Regional Hospital Associations in California. The three Regional Associations have policies for hardship and special circumstances (all three are different), and all consult with CHA when discounts are requested. CHA has the ability to accept, reject or modify the proposed reduction.

7. Do you have a policy for collecting or writing off past-due accounts? Yes No

a. If yes, describe or provide a copy of this policy by mail or fax.

In general, CHA expects payment of billed dues. However, occasionally there are circumstances in which a hospital has been unable to pay partial or full dues in one year, but is on track for the following year, and therefore, on a case by case basis, a decision may be made to write off prior year's dues.
