## Facts About GHA

GHA is a nonprofit trade association made up of member hospitals, health systems and individuals in administrative and decision-making positions within those institutions. Founded in 1929, GHA serves approximately 195 hospitals and health systems in Georgia. Its purpose is to promote the health and welfare of the public through the development of better health care for all of Georgia's citizens. GHA members are committed to improving institutional health care services and, in turn, patient care. The association provides information and education on issues ranging from access to health care and clinical care updates, to effective health care management and compliance with high-level accreditation standards. From its headquarters near Atlanta, GHA represents its members to Congress and the General Assembly and before federal and state regulatory agencies. GHA is an allied member of the American Hospital Association.
